Increased supply and sustainable solutions

Capturing nature's energy

We are a leading force in resource utilisation, climate actions, and energy transition in harmony with Mother Nature. We support growing communities, households, and industries with increased energy supply, utility operations, and carbon fixation. We are a strong voice in the discussion about effective policy and regulatory development

● Increased energy production

- Sustainable and diverse electricity production increased significantly in calculated steps
- Increased heat production to meet the needs of households and industries

● Responsible resource utilisation

- Maximize the lifetime of resources, minimizing environmental impact and protecting biological diversity and ecosystems
- Pioneer in the circular economy in energy and utility operations

● Efficient utility system

- Profitable and economical high-speed connections
- Ensure that utility systems support infrastructure development, energy exchange, and sustainable development

● Carbon neutrality

- Certified carbon neutrality by 2040 based on the best standards.
- International implementation of Carbfix

Innovation and strong collaboration

Connecting with society's creative energy

We are leaders in innovation and highly sought after for collaboration. We work with owners, other municipalities, households, and the business sector towards a sustainable future with mutual benefit as our guiding light.

● Value-adding solutions

- New value-added solutions for stakeholders towards a sustainable future.
- Evolve and innovate current solutions to maximize the lifespan of resources and enhance utilisation.

● Agile and efficient implementation

- New ideas come to life rapidly and efficiently

● Effective collaboration

- Acceleration of development
- Collaboration on larger projects
- Mutual benefit from collaboration

Success-oriented team and sustainable operations

Amplifying our own innovative energy

We are an enthusiastic, agile and diverse team that contributes to efficient and reliable operations. Well-being, growth and enthusiasm of each individual are closely connected to motivation and goals. We work purposefully towards the international competitiveness of the corporation, developing and enhancing the knowledge and capabilities of the staff who are entrusted with decision-making and influence.

● Diverse team

- Leadership in diversity and equality
- The staff utilises their abilities in the transformation and development of the operation
- A safe and meaningful workplace

● Efficient and smart

- Digital-capabilities are the driving force behind increased productivity, customer satisfaction, and competitiveness.
- Effective and smart infrastructure that meets diverse needs

● Reliable operation

- Healthy operational performance and stable finances in accordance with the owner's requirements for return on equity to the extent that they do not threaten the financial position in the future
- Strong risk management
- Clear responsibility, measurement and follow-up on performance

●

Forward-thinking leadership

- A flexible and forward-thinking team that has the mandate to seize opportunities and meets future challenges.
- Support for the development of knowledge and skills of the staff in accordance with future needs.
- Data- and intuition-driven decisions enhance efficiency and productivity

For the customer

Bringing energy to customers

We create value for diverse customers, put ourselves in their shoes, are innovative, and provide excellent service.

● Satisfied customers

- Customer satisfaction is measured among the best.

● Smart and safe service

- Simple, informative, and convenient/accessible for the customer – digital yet human.

● Diverse business

- Diverse customers, services and markets that deliver added value and a sustainable future.
